## Work Experience

### ANALYST II INFRASTRUCTURE SERVICES | DXC TECHNOLOGY

June 2022 – Present

- **Developed dynamic, scalable web applications** using **React.js, Node.js, Express.js**, and **MongoDB**, delivering seamless full-stack solutions.
- **Optimized performance** with lazy loading, code splitting, and efficient database queries, reducing application load times by 40%.
- **Implemented and integrated RESTful APIs**, enabling secure and efficient data exchange between client and server.
- **Designed responsive, intuitive user interfaces** using **Tailwind CSS** and **modern UI/UX principles**, enhancing user engagement and accessibility.
- **Collaborated in Agile teams**, participating in sprint planning, code reviews, and version control using **Git**, ensuring high-quality, maintainable codebases.
- Utilized **Docker** and **Jenkins** for building and deploying containerized applications.

### INTERN | DXC TECHNOLOGY

Feb 2022 – June 2022

- Created responsive web pages using HTML, CSS, and JavaScript during a hands-on internship.
- Gained foundational knowledge in full-stack development by contributing to real-world projects.

## PROJECTS

### Aviva Project:

- Redesigned and enhanced the UI to improve user experience, resulting in a 15% increase in user satisfaction scores.
- Integrated RESTful APIs with React and Node.js to improve performance and reduce page load times by 40%.

### DXC Internal:

- Designed a real-time monitoring dashboard, replacing an Excel-based system and significantly improving data management and accessibility.
- Automated threshold notifications, improving operational response times by 20% and ensuring consistent performance tracking.
